

Planning Objective Report

Objective Report:

Objective ID: 1551

Objective Title: QEP Direct Measure of Success Skills

Unit Manager: DeLuca, Eileen

Planning Unit: 00330 - First Year Experience and Academic Success

Obj. Status: Implementing

Obj. Purpose: Assessment Outcome

Unit Purpose:

Objective Description:

Upon successful completion of the Cornerstone Experience course, students will take ownership over their own learning experiences, will apply newly acquired strategies to their academic endeavors, and approach their professional pursuits with confidence.

Institutional Goals

A. Develop a robust program review model

Objective Types

No Objective Types to Display

Planning Priorities

Tasks

No Tasks data

Assessment Measures

Date	Assessment Measure
02/19/2012	Qualitative data from Final Essay assignment
09/27/2011	Success Strategies Presentation Rubric
09/27/2011	Smarter Measure Learning Readiness Indicator Scores on "personal attribute" items: time management, procrastination, persistence, academic attributes, locus of control, and willingness to ask for help.

Intended Results

Date	Intended Results
02/19/2012	Random sample of Final Essay assignments will be analyzed and discussion of success strategies will be coded. The codes will be grouped into concepts and categories that lead faculty will use to describe the success strategies that appear most salient among respondents. The concepts and categories will be used to develop a survey instrument to be used with students in subsequent semesters for self-report of acquisition and application of success strategies.
09/27/2011	By the end of the Spring 2012 semester, 70% of students that complete the course will achieve a 3 (accomplished) or higher on all relevant aspects of the rubric (20% should achieve a 4: exemplary).
09/27/2011	By the end of the Spring 2012 semester, baseline data for the Smarter Measure indicators will be established for comparison and goal setting for the 2012-2013 academic year.

Status Reports

Report Date	Status Report
3/20/2012	In March 2012, A QEP "Standardize Assessment" committee was established. Monica Moore and Professor Freida Miller are chairing this committee. They are reviewing "Smarter Measure Pre-course" data and ensuring that the post-assessment will be ready for the target date.
2/19/2012	During the week of January 9, students in all SLS 1515 sections completed the Smarter Measure Learning Readiness Indicator.
1/28/2012	On January 5, 2012, the QEP Implementation team led a kick-off session with all SLS 1515 faculty. The lead faculty, Myra Walters, led the discussion of assignments and assessments as a review. The groups discussed the implementation of the rubrics.

Actual Results

Date	Actual Results
01/28/2012	Spring 2012 is the inaugural semester of SLS 1515. Baseline rubric scores will be available after May 2012.

Use of Results

Date	Use of Results
01/28/2012	The lead faculty, Myra Walters, will review the baseline data with the other SLS 1515 faculty. The analysis and discussion will inform instructional delivery and assessment of success strategies.

First Year Experience: Group Presentation (Required Cornerstone Assignment)

Purpose: To have students reflect upon what it takes to be successful at Edison State College and to apply effective time management and small group problem solving skills to create a 5-10 minute presentation. The assignment involves using effective small group communication and problem-solving skills to analyze and evaluate what it takes for a student to be successful at Edison State College. The conclusions drawn by the group will be shared in a 5-10 minute presentation.

Assignment Outcomes:

Upon completion of this presentation assignment the student should be able to:

- Develop a time line and apply effective time management skills to finish the class project by completion date.
- Apply critical thinking skills to analyze and evaluate course content to draw conclusions about what it takes to be successful at Edison State College.
- Apply effective small group communication and problem solving skills while working with other students to complete a class project.
- Produce a 5-10 minute presentation on “*What it takes to be successful at Edison State College*”.

Presentation Options: (Check with your professor regarding other acceptable options for completing this assignment).

Some acceptable options for completing this assignment include:

- Group PowerPoint slideshow
- Group Skit
- Group Presentation
- Group Digital Video

Estimated Time For Completion: Approximately two weeks

Project Components

1. **Completion of the Problem –Solving Template-** Each group will discuss and come to a group consensus regarding answers for each part of the problem-solving template. One template will be completed and evaluated for each group.
2. **Timeline for Project Completion** – This document should reflect the group analysis of the various steps that must be addressed along with a timeline of when each step will be addressed and who in the group will be responsible for completing each step.
3. **Presentation** - Each group will create and upload a 5-10 minute presentation according to classroom instructions.

Group Presentation Assignment

Outcome Criteria	4 Exemplary	3 Accomplished	2 Developing	1 Beginning
Completion of the Problem-solving Template	Ideas presented in the problem solving template demonstrates a high level ability to think through the topic and to draw thorough and thoughtful conclusions that have emerged from analysis and evaluation.	Ideas presented in the problem solving template demonstrates an ability to think through the topic. Assumptions and assertions are reasonable based upon available information. Reasonable conclusions have emerged from analysis and evaluation.	Ideas presented in the problem solving template demonstrates some weakness in the group's ability to think through the topic. Assumptions and assertions are mostly reasonable based on available information. Conclusions have been drawn but further analysis may be needed.	Ideas presented in the problem-solving template lack clarity and are difficult to follow. Assertions and assumptions are mostly unreasonable. There is little evidence that students used analysis and evaluations to arrive at conclusions.
Timeline for Project Completion	The project management timeline submitted is complete. All significant and relevant steps are identified in the appropriate order that they should be completed. The plan also includes due dates for each task/step as well as the responsibilities/assignments for each member of the group.	The project management timeline developed by the group is clear. It includes the steps, due dates and responsibilities/assignments for each member of the group.	The project management timeline developed by the group is not entirely clear. Additional information is needed to clarify specific tasks/steps, due dates and/or responsibilities/assignments for each member of the group.	The project management timeline developed by the group is not clear. A significant amount of additional information is needed to clarify specific tasks/steps, due dates and/or responsibilities/assignments for each member of the group.
Demonstration of Effective Group Communication Skills	The group maintains a high level of focus and concentration to stay on task, attends to the interpersonal needs of class mates, and uses effective strategies to manage conflict within the group.	The group steadily moves forward while giving in to minor distractions, attends to some of the interpersonal needs of class mates and applies some of the strategies for managing conflict within a group.	The group gives in easily to distractions and has to constantly refocus on the task. Group members appear to focus a little too much on the interpersonal needs rather than completing the class project. They deal with minor issues of conflict to avoid jeopardizing the relationships between people in the group.	The group is in need of constant supervision to focus on the group project. Group members appear to be more concerned about making friends rather than completing the class project. They avoid conflict because they do not want to risk damaging relationships to get the group back on track.
Presentation	The presentation meets the requirements for the assignment and is an exceptional and creative representation of the conclusions that emerged from the group's analysis and evaluation. The message is communicated by group members in a way that is clear, grammatically correct and memorable.	The presentation meets the requirements for the assignment and represents the conclusions that emerged from the group's analysis and evaluation. The message is communicated by group members in a way that is clear and grammatically correct.	The presentation meets most of the requirements for the assignment and represents some of the conclusions that emerged from the group's analysis and evaluation. The message is communicated by group members in a way that is clear and mostly grammatically correct.	The presentation fails to meet all the requirements for the assignment. A disconnect exists between the earlier conclusions that emerged from the group's analysis and evaluation presented in the problem-solving template and the content of the video. The message is communicated by group members in a way that lacks clarity and is mostly not grammatically correct.

QEP/FYE Kickoff

January 5, 2011

S107

9:00 a.m. – 11:00 a.m.

Minutes

Those attending the kickoff included: Tom Rath, Eileen Deluca, Kevin Shriner, Myra Walters, Katie Paschall, Frieda Miller, Kathy Clark, Terri Heck, David Hoffman, Gary Rogers, Martin Tawil, Elaine Schaeffer, Regina Miller, Rebecca Gubitta, Jaime Marecz, and Joyce Dye.

Items discussed included:

- An update on the instructional materials for the course. Myra distributed additional materials to use in the Critical Thinking component of the course. The website www.criticalthinking.org was introduced as an excellent source for course materials.
- Syllabi process – faculty are to send Kevin Shriner a copy of the syllabus. On the off-campus sites, faculty are to send syllabi to their respective campus deans and copy Kevin.
- Enrollment management – the total number of SLS 1515 sections was reduced due to low enrollment.
- Assessment – Eileen discussed the assessment plan for the QEP. Indirect and direct measures of assessment were also discussed. It was mentioned that we need standardization of the rubrics. This will be accomplished during the weekly meetings. Focus group interviews will be conducted in the Cornerstone course this semester.
- Faculty are to email Tom Rath office availability times to determine weekly meeting times.
- The meeting concluded with a question/answer session.

Planning Objective Report

09/27/2011	Beginning AY 2012-13, there will be a 5% increase in the Academic Challenge benchmark over the previous year's results.
09/27/2011	Following completion of the professional development modules, 80% of trained faculty will report using critical thinking and first-year student success strategies as measured on Likert scale items.
09/27/2011	Beginning AY 2012-13, faculty results for these items will be at or above the national average.

Status Reports

Report Date	Status Report
3/26/2012	As of April 2012, 37 faculty have completed the ten Cornerstone Instructor Certification Training Modules.
3/20/2012	Dr. Gubitti agreed to serve as the Training and Development Subcommittee chair. During an SLS 1515 Community of Practice meeting, Dr. DeLuca, Dr. Gubitti and the faculty agreed to invite trainer, Steve Piscitelli, to lead a 2-day summer workshop on Critical Thinking and Understanding the first-year student. Dr. DeLuca spoke with Steve Piscitelli, they agreed on a fee and schedule. The tentative date is June 28 and 29.
3/20/2012	As of March 2012, 309 faculty, staff or administrators have participated in one or more Cornerstone Module trainings. 32 faculty have completed all ten required Cornerstone Instructor Training modules (See attached Training Report and Faculty Completers Spreadsheet).
2/19/2012	In order to gain feedback on the efficacy of the Cornerstone Experience Training modules, The QEP Implementation Committee designed two surveys that include both Likert Scale items and open-ended responses. (See attached Cornerstone Instructor Training Modules Survey.) The surveys were sent out to completers in February 2012.
1/24/2012	As of January 2012, thirty faculty, and three staff members have completed all ten Cornerstone Instruction Certification Modules. See attached "Cornerstone Certification Faculty" chart. All fourteen faculty currently teaching the course have completed all ten modules.
1/24/2012	On, January 19, Dr. DeLuca sent out a message to all SLS 1515 faculty that funding is available for attendance at the 31st Annual Conference on the First Year Experience which will be held in San Antonio Texas from February 17-21. Five of the sixteen (36%) of the current faculty volunteered to attend the conference.

Actual Results

Date	Actual Results
02/26/2012	Mid-year results: Twenty-five of the thirty faculty completers responded to the Cornerstone Instructor Module survey. 68.7% of the completers "agreed" or "strongly agreed" that they had applied the "Critical Thinking" knowledge gained from the modules to their teaching or interactions with students (falling 11.3% short of the stated goal). 79.2% of the completers "agreed" or "strongly agreed" that they had applied the "Success Strategies" knowledge gained from the modules to their teaching or interactions with students (falling .8% short of the stated goal). See attached Cornerstone Instructor Module Survey results.

Use of Results

Date	Use of Results
02/26/2012	The Cornerstone Instructor Module Survey data will be reviewed by the QEP Implementation Team at the meeting on March 1. The survey responses will be used to help revise and re-design the training modules for the fall 2012 semester.
03/20/2012	On March 1, Dr. DeLuca reviewed the Cornerstone Instructor module survey data with the QEP Implementation Team (see attached minutes). For all Likert Scale items, the majority of the respondents "agreed" or "strongly agreed" that the modules had increased their understanding of the topics. Also, the majority of the respondents "agreed" or "strongly agreed" that they had applied the development of critical thinking and success strategies to their interactions with students. The group also reviewed the open-ended responses. One trend noted was that respondents wanted more "course-specific" training in terms of the assignments, assessments, and teaching developmental students. The data will be reviewed by the Training and Development subcommittee to inform improvement of the modules.

1. Your participation in this survey is completely voluntary and you are free to discontinue your participation at any time. Completion and return of the survey indicates your consent to participate. Your identity will not be known by the researcher and there is no way that your responses could be known by the workshop facilitators or your colleagues. Your completion or lack of completion of the survey also does not affect your relationship to Edison State College in any way. You are welcome to contact the Dean of Institutional Research, Planning and Effectiveness at ir@edison.edu or 239-489-9291 with questions or concerns about participants' rights.

		Response Percent	Response Count

3. Indicate the extent to which you agree with the following statements about the Cornerstone Training Modules.

	Strongly disagree	Disagree	Neither agree nor disagree	Agree	Strongly agree	Rating Average	Response Count
The training increased my understanding of "critical thinking."	4.2% (1)	0.0% (0)	25.0% (6)	50.0% (12)	20.8% (5)	3.83	24
The training increased my ability to promote and support critical thinking among students.	4.2% (1)	0.0% (0)	25.0% (6)	58.3% (14)	12.5% (3)	3.75	24
The training increased my understanding of research-based "success strategies."	4.2% (1)	4.2% (1)	16.7% (4)	54.2% (13)	20.8% (5)	3.83	24
The training increased my ability to promote and support success strategies among students.	4.2% (1)	4.2% (1)	8.3% (2)	50.0% (12)	33.3% (8)	4.04	24
answered question							24
skipped question							1

4. Participating in the Cornerstone Instructor Training Modules...

	Strongly disagree	Disagree	Neither agree nor disagree	Agree	Strongly agree	Rating Average	Response Count
Gave me a greater understanding of the needs of first-year college students.	4.2% (1)	12.5% (3)	8.3% (2)	54.2% (13)	20.8% (5)	3.75	24
Increased my understanding about research-based strategies that support the success and retention of first-year students.	4.2% (1)	4.2% (1)	16.7% (4)	54.2% (13)	20.8% (5)	3.83	24
Helped me to understand how to actively engage students to increase information retention and/or classroom learning.	4.2% (1)	4.2% (1)	20.8% (5)	58.3% (14)	12.5% (3)	3.71	24
Gave me ideas to develop student-centered instruction and engage in student-centered communication.	4.2% (1)	4.2% (1)	25.0% (6)	41.7% (10)	25.0% (6)	3.79	24
Increased my understanding of the needs of developmental or remedial learners.	8.3% (2)	4.2% (1)	20.8% (5)	45.8% (11)	20.8% (5)	3.67	24
Increased my understanding of the role of learning styles so that I may adapt my classroom teaching, and/or my communication with students.	4.2% (1)	0.0% (0)	25.0% (6)	50.0% (12)	20.8% (5)	3.83	24
Expanded my familiarity with college services and support.	4.2% (1)	0.0% (0)	8.3% (2)	62.5% (15)	25.0% (6)	4.04	24
Increased my understanding of diverse students and how to celebrate diversity in my classes.	4.2% (1)	4.2% (1)	12.5% (3)	62.5% (15)	16.7% (4)	3.83	24
Increased my ability to support students' academic and career planning.	4.3% (1)	8.7% (2)	26.1% (6)	47.8% (11)	13.0% (3)	3.57	23
Provided me with ideas for how to adapt my teaching style in the classroom and/or my approach to dealing with students.	4.2% (1)	4.2% (1)	20.8% (5)	54.2% (13)	16.7% (4)	3.75	24

Page 6, Q1. Please tell us what additional training topic would have been useful to help you apply practices that promote critical thinking and success strategies among first-year students.

1	I think a problem-solving course based on the various issue that teachers might run into when teaching a cornerstone course. How to adequately run a course and tackle issues when a majority of the students are not prepared for college life. A course that discusses the typical issue that might arise so professors can have an idea of what to expect.	Feb 23, 2012 1:08 PM
2	Helping students deal with stress/pressures (from family, academics, work).	Feb 21, 2012 1:27 PM
3	n/a	Feb 21, 2012 1:13 PM
4	Hands on activities that lead to student centered learning.	Feb 21, 2012 10:55 AM
5	A little more practise using hands on activites would have enhanced the training.	Feb 20, 2012 10:52 AM
6	Cooperative Learning Listening Skills	Feb 18, 2012 4:37 PM
7	n/a	Feb 18, 2012 2:42 PM
8	The content material/text was introduced. It would have been helpful to have a list of the chapter titles to get a better understanding of the role of the text in the coursework and to get an idea about key areas that will be covered.	Feb 18, 2012 10:18 AM
9	Perhaps more examples of activities that incorporate application of critical thinking skills.	Feb 17, 2012 8:36 PM
10	None that i can think of presently	Feb 17, 2012 4:12 PM
11	more about the application of critical thinking skills to everyday campus experiences	Feb 17, 2012 3:40 PM
12	I think providing more activities to engage the students. Providing activities that were more on the developmental need	Feb 17, 2012 1:45 PM

Page 6, Q2. What would you have done to make this Cornerstone Instructor Training program more effective? What changes would you suggest?

1	The training felt scattered and disconnected. It may have been helpful if the training is offered with a cohort of people, and was presented in a more interconnected format.	Feb 23, 2012 1:08 PM
2	Use the AR method to plan and implement this course. Future modules need to provide specific activities that were successful with Edison students. Input from the instructors is vital and potential problems any of us foresaw should have been incorporated into the actual course syllabus/materials. Final modules should have provided specific and common course activities/projects for all instructors to try during this first semester.	Feb 21, 2012 1:27 PM
3	Quality of videos improved	Feb 21, 2012 1:13 PM
4	Sharing pacing guides for the course.	Feb 21, 2012 10:55 AM
5	I was very impressed with all of the modules and felt that I learned a lot from each. The only change would be a few more interactive activities in some of the modules. Most had a lot but a few were just lecture. I enjoyed learning the new strategies and have used some in my classes.	Feb 20, 2012 10:52 AM
6	The Cornerstone Instructor Training is comprehensive in meeting the needs of incoming students. All students should be required to take the course.	Feb 18, 2012 4:37 PM
7	Updates on how the course is going this semester and what changes are anticipated for the course	Feb 18, 2012 2:42 PM
8	see above. Fortunately, it was available on-line. It would have been helpful if the presentors introduced themselves during an initial part of the presentation - names were asked on the evaluation sheets/feedback sheets but they were not always available.	Feb 18, 2012 10:18 AM
9	Some of the assignments/asessments need more direction and clarification, especially the Passport activity. Have a goal for the amount of points to earn - perhaps relate it to a grade for the course.	Feb 17, 2012 8:36 PM
10	The items that are embedded in this class are very broad and should be limited to those items that are not covered in other Edison classes or needed to be successful during the first semester, ie cover sheet and resume should be reconsidered for this class material. Help the students to be successful in this class by not expecting it to be a shotgun approach of blasting alot of information- too fast and too much. These are remedial students that need to grasp the material and may need less to do better.	Feb 17, 2012 7:11 PM
11	Bigger classroom, More time to each module	Feb 17, 2012 4:12 PM
12	more opportunities to share the expertise of the variety of instructors teaching this course, more ownership by the participants and a bit less top-down instruction most modules were quite good, but some instructors in the training had as much, if not more, knowledge in particular areas and could have added to the presentations if there had been more opportunity to do so	Feb 17, 2012 3:40 PM
13	I got a lot out of the course the way it was. As a a very hands on learner, my	Feb 17, 2012 1:57 PM

Page 6, Q2. What would you have done to make this Cornerstone Instructor Training program more effective? What changes would you suggest?

best learning has come from my classroom experience.

14 Had more structure on the course content. I did not feel prepared to cover engage the students the way the course was intended. The design does not support the need.

Cornerstone Course Training Report

April 1, 2012

Following is a count of the number of faculty/staff/administrators who have taken at least one Cornerstone course either in the TLC or online.

Total participants all campuses: 309

Lee Campus: 232

Faculty: 161 (68 Full Time, 93 Adjuncts)

Staff: 59(56 Full Time, 3 Part time)

Administration: 17

Charlotte Campus: 40

Faculty: 17 (7 Full Time, 10 Adjuncts)

Staff: 21 (16 Full Time, 5 Part Time)

Administration: 3

Collier Campus: 24

Faculty: 17 (6 Full Time, 11 Adjuncts)

Staff: 6 (4 Full Time, 2 Part Time)

Administration: 1

Hendry Glades: 13

Faculty: 9 (4 Full Time, 5 Adjuncts)

Staff: 3 (3 Full Time)

Administration: 1

Planning Objective Report

Objective Report:

Objective ID: 1548

Objective Title: QEP Direct Measure of Critical Thinking

Unit Manager: DeLuca, Eileen

Planning Unit: 00330 - First Year Experience and Academic Success

Obj. Status: Implementing

Obj. Purpose: Assessment Outcome

Unit Purpose:

Objective Description:

Upon successful completion of the Cornerstone Experience course, students will demonstrate their acquisition of analytical and evaluation skills; students will apply these acquired skills to guide their thinking, behavior, and attitude.

Institutional Goals

A. Develop a robust program review model

Objective Types

No Objective Types to Display

Planning Priorities

No Planning Priorities to Display

Tasks

Due Date	Status	Priority	Task
03/19/2012	In Progress	High	During the inaugural semester, the SLS 1515 lead faculty member, Myra Walters will lead a rubric standardization/norming session for the Critical Thinking Journal Rubric. Faculty will collect the first-two journal entries to provide formative feedback to the students. A random sample of student entries (IRPE office will stratify to ensure representation from across campuses) will be copied, names will be redacted, and faculty scoring teams will score entries. Inter-rater reliability will be established. Faculty will also provide feedback towards making any necessary modifications.
05/21/2012	In Progress	High	During the inaugural semester, the SLS 1515 lead faculty member, Myra Walters will lead a rubric standardization session for the Success Strategies Presentation Rubric.

Assessment Measures

Date	Assessment Measure
09/27/2011	Critical Thinking Journal-Scored with Critical Thinking Rubric
09/27/2011	Final Essay-Scored with Critical Thinking Rubric
09/27/2011	California Critical Thinking Skills Test scores

Intended Results

Date	Intended Results
09/27/2011	By the end of the Spring 2012 semester, 70% of students who complete the course will achieve a 3 (accomplished) or higher on all relevant aspects of the Critical Thinking Journal rubric (10% should achieve a 4: exemplary)
09/27/2011	By the end of the Spring 2012 semester, 70% of students who complete the course will achieve a 3 (accomplished) or higher on all relevant aspects of the rubric (20% should achieve a 4: exemplary)
09/27/2011	By the end of the Spring 2012 semester, baseline data will be established for comparison and goal setting for the 2012-2013 academic year..

Status Reports

Report Date	Status Report
3/26/2012	Six faculty have volunteered to attend the International Critical Thinking Conference in July 2012.
3/26/2012	Steve Piscitelli will lead a two-day Critical Thinking Workshop at ESC on June 28 and June 29. All faculty, staff, and administrators will be invited to attend.
3/26/2012	On March 26, the Cornerstone Faculty reviewed the qualitative and quantitative rubric data from the March 3rd standardization session (see attached minutes). Based on the data and discussions, the curriculum committee is revising the rubric. The revised rubric will be used as a summative instrument by all faculty for the final journal submission.
3/21/2012	On March 20, Dr. DeLuca sent an email to SLS1515 faculty and QEP Response Team members alerting them about the upcoming International Critical Thinking Conference (July 2012). She has invited five participants to attend. So far six faculty and administrators have expressed an interest.
3/20/2012	On March 3, nine faculty and the Dean of College and Career Readiness engaged in a rubric standardization session. The session will provided an opportunity for instructors to engage in a formative assessment of student artifacts, discuss the clarity of the Critical Thinking Journal assignment guidelines, practice using the rubric for scoring, and provide feedback for revising the rubric for clarity and efficacy. Both qualitative and quantitative data were collected. The qualitative responses were summarized and sent to all SLS 1515 faculty on March 14. The inter-rater correlations were provided by the IRPE on and disseminated to the Dean and Lead faculty on March 19. Both the qualitative and quantitative data will be reviewed with all SLS 1515 faculty on March 26 to inform revisions to the rubric.
3/20/2012	In March 2012, A QEP "Standardized Assessment" committee was established. Monica Moore and Professor Freida Miller are chairing this committee. They are reviewing "California Critical Thinking Test" data and ensuring that the post-assessment will be ready for the target date. They are also reviewing related assessments (based on faculty input) that may prove to be a more suitable assessment tool (in terms of readability) for the students.
2/19/2012	Before the Critical Thinking rubric is used as an overall summative instrument of achievement, the faculty will engage in a rubric standardization session. In February 2012, the QEP Implementation Team asked instructors to collect initial journal entries from students. A representative sample was collected from all campuses. Upon collection, the journal entries were photocopied, and names were redacted. A rubric standardization session will be held on March 3, 2012. Ten of the fourteen SLS 1515 faculty have agreed to participate. The session will provide an opportunity for instructors to engage in a formative assessment of student artifacts, discuss the clarity of the Critical Thinking Journal assignment guidelines, practice using the rubric for scoring, and provide feedback for revising the rubric for clarity and efficacy.
1/28/2012	The inaugural SLS 1515 sections began on January 9, 2012.

Actual Results

Date	Actual Results
01/28/2012	This is the course's inaugural semester. Baseline rubric scores will be available after May 2012

Use of Results

Date	Use of Results
01/28/2012	Results of the standardization/norming session in March 2012, will be used to revise the rubric for implemenntation at the end of the spring 2012 semester. After May, 2012 The lead faculty, Myra Walters, will review the baseline data with the other SLS 1515 faculty. The analysis and discussion will inform instructional delivery and assessment of critical thinking.

Minutes

Cornerstone Community of Practice

S-117

March 26, 2012, 3:00-4:00

Dr. Eileen DeLuca	<i>Present</i>	Elaine Schaeffer	<i>Present</i>
Myra Walters	<i>Present</i>	Terri Heck	<i>Present</i>
Freida Miller	<i>Present</i>	Martin Tawil	<i>Present</i>
David Hoffman	<i>Present</i>	Gary Rodgers	<i>Present</i>
Jaime Marecz	<i>Present</i>	Dr. Rebecca Gubitti	<i>Present</i>
Lisa Wroble	<i>Present</i>	Dr. Katie Paschall	<i>Present</i>

1. Critical Thinking Test: Freida Miller reviewed the procedures for the Critical Thinking post-test. She will send the guidelines and pass codes to the group.
2. Dr. DeLuca and the faculty reviewed the qualitative and quantitative data from the rubric standardization session.

Qualitative responses:

- The faculty discussion and written responses indicate that the group may lack a shared understanding of the elements of the Elder-Paul Critical Thinking Model. The faculty agreed that they would like to engage in more Critical Thinking Training. Steve Piscitelli will lead a two-day Critical Thinking workshop at ESC on June 28 and 29. Six faculty agreed to attend the International Critical Thinking Conference in July 2012. Regular Critical Thinking Community of Practice sessions are planned for 2012-2013, to be led by faculty who have attended the International Critical Thinking Conference. Rubric training will be built into the QEP Cornerstone Instructor Training Modules.
- One specific rubric criterion that there was disagreement on was "Relevancy." Many faculty disagreed on how to interpret the levels of performance for this criterion.
- There were many comments on how to tweak the wording in some items to make the levels of performance more specific and measurable.

Quantitative data:

- While reliability was established in the inter-rater correlations, in some areas it was a low correlation. The criterion with the lowest correlation was "Relevancy." This supports the faculty's assertion that they lacked a shared understanding of this criterion. Myra will give the faculty guidance on how to score the "Relevancy" criterion.

- There were many criteria that seemed to correlate strongly with others. “Accuracy” was one that seemed to correlate strongly with many of the other criterion. Faculty may consider whether or not this criterion needs to be measured separately from others.

3. The group discussed the results and what changes they would make based on the results. Myra Walters and the curriculum subcommittee will revise the rubric based on the data and discussion. The revised rubric will be used by all faculty as a summative instrument for the final journal submission.

Minutes submitted by Eileen DeLuca

The CORR Procedure

10 Variables:	AC1
	AC2
	AC3
	AC4
	AC5
	BC1
	BC2
	BC3
	BC4
	BC5

Simple Statistics

Criteria 1 and 2 are strongly correlated. (Clarity and Logic-Accuracy)

Criteria 2 and 4 are strongly correlated. (Accuracy-Significance)

Other Criteria with notable correlations

Criteria 1 and 5 (Clarity and Logic-Format, Mechanics, Grammar)

Criteria 2 and 3 (Accuracy-Relevance)

Criteria 2 and 5 (Accuracy-Format, Mechanics, Grammar)

Criteria 3 and 4 (Relevance-Significance)

Correlation Analysis

The CORR Procedure

Critical Thinking Rubric Feedback

Comments from the Rubric Standardization session, Saturday, March 3, 2012

- 1. Please comment on how you believe the Critical Thinking Rubric worked for you in scoring essays today.**

It was helpful; however I had some difficulty between levels, especially between 3 and 4. I also had some difficulty separating what I know about developmental students from the rating scale.

It gave guidelines.

For the most part it was helpful because it forced continuity in scoring. I did find myself waiting to select a score between score levels for some essays.

Worked pretty well. One challenging one was relevancy. The levels of performance may need to be reworded.

It was helpful, but I was confused by some of the wording. Looking at the prompts sometimes made it difficult to apply the rubric.

I experienced some frustration when applying the rubric.

Too many horizontal and vertical columns. We need broader categories.

There is no quantity listed in terms of error. "Nearly Flawless" "Few Errors" How many is a "few"?

It worked fine.

Before discussing with my partner, I felt the rubric worked well; after our discussion, I realized the line between 2 and 3 for Relevance, Significance and Mechanics need to be clarified, quantified and refined.

- 2. Looking at the levels on the Rubric, are any too similar? E.g., is 4 too similar to 3? Explain.**

Yes, I think more revision is needed.

Based on experiences today, I think "organization structure" should move from Format, Mechanics, and Grammar to Clarity and Logic. I also felt the levels for Accuracy 2 and 3 were too similar and significance 3 and 4 were so close that I wanted to select a "between" score.

Relevance -level 2- use of word “appropriate” sometimes is unclear. Maybe add “appropriate or fully-developed”.

I did not have a problem with the levels.

Yes, 4 is too similar to 3.

It is difficult for a student to incorporate all 5 levels in a 100 word essay.

First, criteria should include the organizational structure—that seems to be a large part of clarity.

3. Examine the five criteria listed. Is there any overlap; do you believe you may be scoring students more than once for the same criterion?

I do not think there is overlap; however there may be a need to include “meets minimum word count”.

A part of Clarity and Logic, I am looking at how the journal entry is organized. (Format is part of final category for set up, typing, etc.)

We see overlap with “relevance”, accuracy, and significance.

I see overlap between Relevance, Accuracy and Significance. If the entry isn’t relevant, can it be accurate or significant?

Yes, I do know that each is distinctive, but sometimes relevancy and significance are blurred.

Yes, we could agree on the defining differences of Accuracy, Relevance and Significance.

No!

Five criteria make sense—do not change.

4. In what ways would you change the Rubric for ease of use? Use the attached form to be specific.

Changing the word appropriate or adding well-developed to number 2 in relevance. Include organizational structure in the clarity part of the rubric.

Add a “middle” grade level—perhaps advanced to show the student is progressing during the semester.

Are 10 entries too many? Reword relevancy, but also think about changing prompts to encourage students to focus on topics and use real-life examples. Change prompts so that all prompts include language about writing a paragraph. Think about how much students should be encouraged to use vocabulary. Do we always want a paragraph? Is the word count useful?

The wording needs to be redesigned. Ambiguous language.

I think we should consider using three standards: Accomplished, Developing and Beginning.

Too few categories.

Add "Met the minimum word requirement" to the format section.

Add one more grading level: 5-Exemplary 4-Accomplished 3-Advanced 2-Developing 1-Beginning

5. Thinking about translating the Rubric into a grade, what weighing should be assigned to each individual criterion? Please provide specific examples of what you would do.

I believe significance should hold more importance than Grammar/ Mechanics.

I'd weigh them all equal.

25 points total, clarify each categories wording. I break the grid into equal points for each "square" and then total points.

20% for each. 25 points and 5 points for completion.

I am currently assigning 25 points to each entry. The student gets 5 points for an attempt. The categories can then be given up to 4 points apiece.

3 Grades- A, C, D

Clarity	20%
Accuracy	20%
Relevance	20%
Significance	20%
Format	20%

6. Do you have any other comments or suggestions about the Critical Thinking Rubric as a tool for scoring journal entries?

Relevance was hard to grade between 3 and 2. If we require a word count, should there be mention of that in the rubric?

Overall, some tweaking of current rubric is needed so each instructor is interpreting it in the same way.

Show students the rubric before they write the first entry. Give formative feedback along the way based on the rubric. Maybe have an electronic rubric in canvas that students could receive a score for each one.

Be specific and/or consistent about the call for paragraphs or format.

I believe that I would delete the current minimum word count and change each to one page. Students who appear to write more can be evaluated in most of the areas.

It is close but needs work.

I do think it is a valuable tool for consistency.
