FOR ALL MAJORS: Students are strongly encouraged to select required lower division electives that will enhance their general education coursework and that will support their intended baccalaureate degree program. Students should consult with an academic advisor in their major degree area.

The following is language approved by those colleges with BAS degree programs:

Admission to Bachelor of Applied Science (B.A.S.) degree programs usually requires an Associate in Science (A.S.) or Associate in Applied Science (A.A.S.) degree in a related area. If a student has earned an Associate in Arts (A.A.) degree, or an A.S. degree, an A.A.S. degree, or its equivalent in an unrelated area, the student may be admitted on a case-by-case basis with approval of the appropriate academic administrator. Some majors may have licensure or other types of requirements prior to admittance. Due to the variance in specialized B.A.S. degree programs and concentrations, students are strongly encouraged to consult with an academic advisor at the B.A.S. degree-granting institution.

- (1) Admission into this program requires students to have an A.S. in a public safety discipline (Corrections, Fire Science, Law Enforcement, Emergency Administration Management, Emergency Medical Technology). Students with an A.S. degree may be admitted with approval of the Dean and must complete 24 credits in a single public safety (A.S.) major.

Program: Supervision and Management (BAS) or General Business Management (BAS) or Organizational Management (BAS)
