Subject: CAPP update

I am pleased to announce the team had a very productive day. We completed the following programs:

- AS Dental Hygiene
- AS Health Information Management
- AS Human Services
- AS Radiologic Technology
- Computer Programming and Applications Certificate
- Crime Scene Technology Certificate
- EMT – Basic Certificate
- Fire Fighter Minimum Standard Certificate
- Network Specialist Certificate

Tomorrow a few members of the team plan to meet to work out some bugs, but our next Team meeting will not be until Tuesday, February 28th.

Subject: CAPP Update

Today the team completed the following programs in CAPP:

AS Networking Services Technology
AS Internet Services Technology
Small Business Certificate

Natural Science for the AA degree still proposes problems. Due to all the variables we are having difficulty capturing every possible scenario in CAPP. We would welcome any suggestions if you'd like to stop by I-117 tomorrow.

Thanks!

Billee
