Supplier Qualifications

Section 7.4 of the ISO 9001 Standard states that companies shall “evaluate and select suppliers based on their ability to supply product in accordance with the organization’s requirements.”

The most common approach is to ask for some combination of the following: 1) ISO certification, 2) a copy of the suppliers Quality System Manual, 3) completion of a supplier questionnaire, and 4) performing a supplier audit. Unfortunately, all four selection criteria are flawed.

Objectives:

- Understand the supplier qualification process.
- Streamline the supplier qualification process with best practices.

Agenda:

- Understand flawed selection criteria
- Understand best practice of a supplier qualification process

Who Should Take this Course?

- Executives / Directors
- Managers
- Engineers
- Supervisors

Learning Outcomes:

After the course you will be able to identify key process steps required to develop a comprehensive supplier qualification process. The participants will learn about:

- What not to rely on for a supplier qualification process.
- How to streamline the supplier qualification review process.
- Teach, Coach, & Mentor Leadership behavior for your supply base.
- Engage Team Members to be active participants in supplier development.

Please call for Dates and Cost.
