

Florida SouthWestern Collegiate High School - Lee Campus is a public charter high school with an open enrollment policy. All Florida SouthWestern Collegiate High School students follow an honors level and STEM based curriculum, providing students with the opportunity to graduate with an associate degree and high school diploma simultaneously.

Our curriculum and student management philosophies follow the nationally recognized pre-collegiate / collegiate model where students take honors level classes during their freshmen and sophomore years in a traditional high school facility. For eligible students, the junior and senior years consist of dual enrollment classes taken on the campus of Florida SouthWestern State College where students are offered all the challenges and rewards of being independent learners. This course of study affords participants the opportunity to earn a high school diploma and an associate of arts degree in just four years of study. With this tremendous opportunity comes an expectation to be highly motivated and focused on academic pursuits beginning the very first day of the very first year of school. Potential students should be prepared to have academics as their primary school priority and are expected to exhibit a high degree of personal integrity and social maturity during their experience at FSWCHS - Lee.
