

## **DENTAL HYGIENE PROGRAM CURRICULUM AND APPLICATION**

### **SCHOOL OF HEALTH PROFESSIONS**

Thank you for your interest in the Dental Hygiene Program at Florida SouthWestern State College. The application for admission into the program is now completed online.

The Dental Hygiene Program is a limited-access admissions program. Applicants are selected on a competitive basis from an applicant pool based upon the attached “Criteria for Admissions” form.

For further information, please contact the Health Professions Program Advisor at (239) 489-9365 ([www.fsw.edu](http://www.fsw.edu)) or refer to the attached information sheet/admission criteria for the program.

Program curriculum and admission criteria are subject to change.

Programs, activities and facilities of Florida SouthWestern State College are available to all on a non-discriminatory basis, without regard to race, color, creed, religion, sex, age, disability, marital status or national origin. The College is an equal access, equal opportunity employer. Questions pertaining to educational equity, equal opportunity or equal access should be addressed to the Director of Human Resources.

**ONLINE APPLICATION PROCESS – Application for the Program will be available September 1, 2024 until December 15, 2024.**

Revision: January 2, 2024

**FLORIDA SOUTHWESTERN STATE COLLEGE  
DENTAL HYGIENE PROGRAM  
ASSOCIATE OF SCIENCE DEGREE  
INFORMATION SHEET**

**ONLINE APPLICATION PROCESS – Application for the Program will be available September 1, 2024 until December 15, 2024.**

<https://www.fsw.edu/academics/programs/asdentalhygiene>

1) ***What will the program prepare me to do?***

The student will obtain instruction and experience in dental hygiene assessment and treatment planning. Program goals are to provide learning experiences and clinical practice which ensures that each graduate is prepared for employment.

2) ***When are students admitted to the program?***

Students are selected in March for the start of classes in the fall semester in late August of 2024. **The application deadline for the school year 2025 is December 15, 2024.** The applicant must have completed three of the following sciences classes: BSC 1093C or BSC1085C, BSC 1094C or BSC 1086C, MCB 2010C, Chemistry with the corresponding Chemistry Laboratory course completed and documented on a transcript by the records check appointment by January 15, 2025.

3) ***Is there selected admission to the program?***

Yes, due to the number of applicants and the limitations of clinical space.

4) ***Does the program keep a “waiting list”?***

No. Individuals not accepted for a class must re-apply to the program for the next year and are not given preference.

5) ***What is the minimum length of the program?***

This two year program is outlined in the Dental Hygiene Program Requirements on page 9. Other enrollment sequences are possible for the general education courses. However, Dental Hygiene core courses must be taken in the specified sequence.

6) ***Will I be participating in clinic or other health agencies as part of my course work?***

Yes, beginning second term of the program. This will require reliable transportation.

7) ***Do I need a uniform?***

Yes, as soon as pre-clinical work begins in the first semester.

8) ***What general education coursework is required in addition to the Dental Hygiene Core courses?***

Chemistry and a Chemistry Lab Chemistry (*selected from the courses listed in the Associate of Arts Degree General Education Program Guide (AA), under chemistry*

Microbiology with Lab (MCB 2010C)

Anatomy & Physiology I with Lab BSC 1093C or BSC 1085C

Anatomy & Physiology II with Lab BSC 1094C or BSC 1086C

English Composition (ENC 1101)

Introduction to Sociology (SYG 1000)

General Psychology (PSY 2012)

Core Humanities – **UPDATED REQUIREMENT**

Core Mathematics- **UPDATED REQUIREMENT**

Civics Course – POS 2041 and/or AMH 2020 **NEW FLORIDA REQUIREMENT**

Fundamentals of Speech (SPC 1017) or Introduction to Public Speaking (SPC 2608)

It is advised, but not required that the general education co-requisite courses be completed as early as possible. However, co-requisite courses can be completed along with the Dental Core Requirements.

9) *Are there prerequisite courses for any of these courses?*

Yes, BSC 1010/1010L, BSC 1093C or BSC 1085/BSC 1085L, Anatomy and Physiology I with Lab is a prerequisite for MCB 2010, Microbiology. **The applicant must have completed three of the following sciences classes: BSC 1093C or BSC 1085C, BSC 1094C or BSC 1086C, MCB 2010C, Chemistry with the corresponding Chemistry Laboratory course completed and documented on a transcript by January 15, 2025. IMPORTANT– Points will not be awarded for repeated courses that have already earned a passing grade of a “C” or better. Please consult an advisor for more specific information.**

10) *Is an interview required?*

The top **30** applicants with the highest number of Phase I points **will** be asked to appear for a mandatory program interview on Friday February 21, 2025 from (8-6p.m.). The program interview format will include a writing sample and a series of questions. The interview committee will evaluate the applicant’s affective and written communication skills. A passing score of 25 points must be earned during the interview phase in order for your application to remain valid.

11) *Are any of my previous college courses transferable to this program?*

If you attended another college, formal transcripts must be sent to Florida SouthWestern State College’s Admissions Office at the time you apply for admission. The Admission and Record Office is involved with transfer of basic college courses such as English or psychology, etc.

If you attended another Dental Hygiene Program, a copy of your transcript will be evaluated for transfer by the Dental Hygiene Program Director. The program will also require other documentation such as a letter of good standing in the academic and clinical coursework, course syllabi and schedules to verify content, particularly for out-of-state students from the program director indicating eligibility to continue in the previous program. Only courses in which you earned a “C” or better are transferable.

12) *What is the cost of the program?*

Tuition is charged per credit hour taken. Florida residents pay \$113.36 per credit. Non-residents pay \$432.63 per credit. Additional costs include insurance, books, uniforms, association dues, license fees, instruments, and lab fees as they become applicable. The student is responsible for transportation to and from assigned clinics or health agencies for curriculum course work.

13) *Can this curriculum be used to further advance my education towards a baccalaureate degree?*

Yes, in selected universities depending upon their degree requirements. It is suggested that an applicant contact the senior institution to which he/she wishes to transfer for specifics.

14) *At what time of the day are classes offered?*

Classes and clinical are held during the mornings and afternoons. Some classes may meet in the evenings. Clinic may be scheduled on Saturdays.

15) ***Must I take the courses in the sequence in which they are listed in the curriculum?***

Yes. In addition, each course must be passed with a grade of “C” or better before the student may advance in the program. All courses are offered only once a year during the term they are shown in the curriculum. Advisement for course registration each semester is done through the program director.

16) ***Does the program offer job placement assistance?***

Yes. Although the program cannot guarantee employment, the college does offer job placement assistance. Furthermore, a list of potential job opportunities is made available to the dental hygiene students.

17) ***What salary range can I expect as a graduate?***

A starting Dental Hygienist in the Southwest Florida area may earn approximately \$50,000-59,000/annually for full-time employment.

18) ***Is there an application fee?***

The student must officially register and meet all College entrance requirements. In addition to the College application fee, the dental hygiene program requires a separate application fee of \$15.00 which is paid online when applying to the dental hygiene program. This fee must accompany the application. All transcripts from previous institutions must be evaluated by the College for transfer before the applicant's application will be processed for the Phase I points in January of 2025.

19) ***Are there any potential health risks in Dentistry?***

The dental health-care professional can be exposed to infectious and communicable diseases that can lead to illness, disability, and loss of work time. In addition, patients, family members, and community contacts can become exposed and may become ill and lose productive time or suffer permanent after-effects. Through proper infection control procedures patients, dental personnel, and immunizations as required of all health professions students that may become exposed can be protected from infections.

20) ***How and when will I know if I have been admitted to the program?***

Notification letters of the status of each applicant will be mailed or emailed no later than 5-6 weeks following the conclusion of Phase II of the selection process. An admission is on a full-time basis. Students completing a program interview, as part of the admissions process into the Dental Hygiene Program at Florida SouthWestern State College, are required to complete a ***Criminal History Background Check and be required to complete drug testing for controlled substances.*** These processes must be completed ***before*** acceptance in the Dental Hygiene Program.

21) ***What part does the Criminal background Check play for my admission to either Program?***

Each applicant is required to inform the Criminal Background Check Committee in writing of any criminal charges on his/her record in any state or national jurisdiction upon submission of an application for enrollment to the program. This information needs to include an explanation of circumstances for possible review by the criminal background committee.

Applicants are notified of the procedure to complete a background check and drug screen at the conclusion of the program interview. Background checks and drug screening are completed prior to admittance into the program.

## **ADMISSION – AN EQUAL ACCESS INSTITUTION**

1. Have graduated from high school or have scored at least 250 on General Education Testing and possess a General Education Development (GED) certificate.
2. Complete all admission requirements to FSW, including FSW application and testing. (Call the Admissions Office at 239-489-9361)
3. Possess a grade point average (GPA) of 2.0 or better on college course work taken for credit.
4. Complete the online Dental Hygiene Program Application.
5. Pay the online \$15 fee as part of the program application procedure. The fee is required at the time the applicant submits their online application.
6. Complete a Criminal Background Check and drug screening as directed after the program interview.
7. Upon admission, submit a Student Health Report verifying overall health and physical capabilities to include required immunizations.

### **Criminal Background Check and Drug Screening**

**Applicants are required to complete a Criminal Background check and Drug screening as directed after the program interview and prior to acceptance into the Dental Hygiene Program.**

The Dean, School of Health Professions in conjunction with the Associate Deans, will review all applicants with a “positive-hit” for the SHP. Applicants will be notified by the Dean, School of Health Professions, as to the need to provide written verification of those criminal charges on his/her record in any state or national jurisdiction that falls under the ACHA disqualification section. This information needs to include an explanation of the circumstances for possible review by the criminal background committee (CBC).

Program acceptance letters will be sent following approval of either the 1<sup>st</sup> level approval by the Dean’s or as a result of the 2<sup>nd</sup> level approval by the CBC.

The Dental Hygiene Program requires an applicant to complete a **Request for Civilian Criminal Records Inquiry to the Criminal Background Check and Drug screening prior to admittance into the Dental Hygiene Program**. This criminal background screening ensures consistency with the requirements of Chapter 435, Florida Statutes, by health care agencies with which Florida SouthWestern State College has clinical affiliation agreements. Background screening must be completed before acceptance to the Dental Hygiene Program can be approved. The **Request for a Criminal Background check and drug testing inquiry** requires payment of a processing fee of approximate cost of \$96.25 to the Criminal Background Company at the applicant’s expense. The criminal background check report(s) must be forwarded directly from CBC to the Dental Hygiene Program Office.

**Applicants with criminal records are forewarned** that the Florida Department of Health-Division of Medical Quality Assurance requires any licensure applicant who has ever been convicted or found guilty of a felony, regardless of adjudication, to explain the circumstances. The same is true for other states with licensure statutes as well as national certification boards. These individuals will need to gain clearance from these agencies before they are allowed to take state licensure and national certification examinations that are usually required for employment.

DH-

### **Criminal History Findings**

Any applicant or enrolled student who has been found guilty of, regardless of adjudication, or entered a plea of nolo contendere, or guilty to, any offense under the provisions of Florida Statutes or under similar statutes of another jurisdiction may be disqualified from admission or continued enrollment in the Dental Hygiene Program.

Those offenses are:

- Murder
- Manslaughter
- Vehicular homicide
- Killing of an unborn child by injury to the mother
- Assault, if the victim of the offense was a minor
- Aggravated assault
- Battery, if the victim of the offense was a minor
- Aggravated battery
- Kidnapping
- False imprisonment
- Sexual battery
- Prohibited acts of persons in familial or custody authority
- Lewd and lascivious behavior
- Arson
- Theft, robbery, and related crimes, if the offense is a felony
- Fraudulent sale of controlled substances, only if the offense was a felony
- Incest
- Abuse or neglect of a disabled adult or elderly person
- Exploitation of disabled adult or elderly person
- Aggravated child abuse
- Child abuse
- Negligent treatment of children
- Sexual performance by a child
- Alcohol or Drug offenses which were a felony, or if the offense involved a minor
- Offenses indicating unfitness to serve as a health care professional

Upon notification of provisional acceptance into the Dental Hygiene Program, each applicant will be provided with a detailed procedure for completing the Request for Civilian Criminal Records Inquiry.

## **Health Record / Ability to Meet Technical Standards**

A completed medical health form and self-assessment Program Technical Standards must also be submitted and approved by the Program Director prior to admission to clinical rotations. This health record will contain results from a physical examination and laboratory tests including immunization records. An updated health record verified by a licensed physician or designee must be submitted on a yearly basis before attending clinical courses.

**Dental Hygiene students who do not meet the standards of good physical and mental health, as required by clinical facilities for safe patient care, may reapply and be considered for application to the Dental Hygiene Program after resolution of the health problem.** Additionally, student drug screens, criminal history reports, and medical records, when submitted, will become the property of Florida SouthWestern State College, and will not be available for copying or for use to meet the requirements of outside employers or other agencies/persons. Students who have stepped out of their program for six months or more must submit new records.

## **Appeal Process**

If a review of a criminal background check or a medical health report deems an applicant or student ineligible for admission or continuation in the Dental Hygiene Program, an appeal can be filed. The College's published appeal process is to be followed as found in the current *Catalog* under "Student Rights and Responsibilities".

**FLORIDA SOUTHWESTERN STATE COLLEGE  
DENTAL HYGIENE PROGRAM**

**CAREER INFORMATION:**

The dental hygienist is a licensed member of the dental health team, dedicated to helping patients maintain good oral health and preventing dental diseases and disorders. Although dental hygiene functions vary by law from state to state, some of the functions routinely performed by a dental hygienist include, but are not limited to, the following:

- \*removal of calculus and plaque from above and below the gumline.
- \*thorough examination of the teeth and oral structures, including soft tissue exam.
- \*exposure, processing and interpretation of dental x-rays.
- \*instructing patients in home oral health care procedures.
- \*placement of temporary fillings.
- \*dietary analysis and counseling.
- \*application of cavity-preventing agents, such as fluoride and sealants.
- \*working with special populations groups such as the elderly or physically handicapped.

**EMPLOYMENT OUTLOOK AND CAREER OPPORTUNITIES**

Employment for dental hygienists is expected to grow through the next decade due to the growing awareness for preventative health care. Hygienists have a variety of career options and may seek employment in areas such as:

- \*Private dental offices
- \*Specialty dental offices
- \*Hospitals
- \*Nursing homes
- \*Dental hygiene education
- \*Insurance
- \*Federal service
- \*Dental product sales
- \*Management and consulting
- \*Public health
- \*Research
- \*Public school system
- \*Foreign service

**FLORIDA SOUTHWESTERN STATE COLLEGE  
DENTAL HYGIENE PROGRAM**

**TECHNICAL ACCEPTANCE STANDARDS:**

A Florida SouthWestern State College (FSW), Associate level Dental Hygiene student must be aware of the technical performance standards that are essential to complete the requirements in the dental hygiene program. The profession of Dental Hygiene is both academically and physically challenging. A student will be involved in direct patient care where it is essential to be able to perform academically in a safe, reliable and efficient manner in the classroom, laboratory and clinical environment.

The Dental Hygiene Program is committed to the principle of diversity. Admission to this program is open to all qualified applicants and complies with the Americans with Disabilities Act and with Section 504 of the Rehabilitation Act of 1973. Any Student requiring special accommodations or classroom modifications should contact the Office of Adaptive Services at Florida SouthWestern State College.

The purpose of these technical standards is to ensure that students are aware of the minimum skills that will allow them to function successfully in their dental hygiene core courses. Throughout the program curriculum, students acquire the foundation of knowledge, attitude, performance skills and behaviors that are necessary to function as a dental hygienist.

All students must be able to meet these minimum standards, with or without reasonable accommodation, for successful completion of degree requirements. The technical standards are:

Standard	Performance Statement/Essential Function(s)
<b>Motor skills</b>	<p><b><u>Performance Statement:</u></b> A student must be able to demonstrate gross and fine motor abilities using both hands and feet to execute motor movements to provide general treatment of dental hygiene services and emergency care to patients.</p> <p><b><u>Essential Function(s)</u></b></p> <ol style="list-style-type: none"> <li>1. Be independent in mobility to move quickly in and around the classroom, laboratory and the clinical treatment rooms.</li> <li>2. Provide for patient safety and well-being in positioning of dental chair, dental light and x-ray equipment.</li> <li>3. Demonstrate proper ergonomic positions and be able to maneuver in small spaces as well as to stand or sit with a patient in the delivery of dental hygiene care services for extended time periods to exceed four hours.</li> <li>4. Perform dental hygiene instrumentation skills simultaneously with both eyes and hands using a combination of small and large dental equipment.</li> <li>5. Maintain adequate strength to lift materials greater than 25 pounds and to assist with patient transfers into a dental chair.</li> <li>6. Perform all expanded function duties as mandated by the Florida State Statutes.</li> <li>7. Frequently walk to and from the sterilization area, reception room, business office, x-ray and dental treatment rooms.</li> <li>8. Successfully complete a CPR certification course to include AED training for an adult, child and infant.</li> <li>9. Exercise fine motor control and possess excellent hand-eye coordination in the development of manual dexterity skills.</li> </ol>
<b>Visual</b>	<p><b><u>Performance Statement:</u></b> A student must have the visual acuity and perception sufficient to accurately observe and assess patient needs at a distance and at close a range to ensure safe and effective clinical performance.</p> <p><b><u>Essential Function(s)</u></b></p> <ol style="list-style-type: none"> <li>1. Receive information via visual observation for the assessment and evaluation of oral tissues to discern differences and variations in color, shape and general appearance between normal and abnormal, soft and hard tissues.</li> </ol>

**FLORIDA SOUTHWESTERN STATE COLLEGE  
DENTAL HYGIENE PROGRAM**

	<ol style="list-style-type: none"> <li>2. Observe and assess the patient’s response to treatment, design individualized oral hygiene care plans and evaluate treatment outcomes.</li> <li>3. View radiographs to determine quality and identify anatomy, pathology, and other pertinent materials for patient care and professional practice.</li> <li>4. Identify and detect signs and symptoms of disease, recognize non-verbal body language exhibited from patients, identify physical wounds and possible oral and systemic infections.</li> <li>5. Read and comprehend text, numbers and graphs.</li> <li>6. Read control panels and equipment gauges accurately.</li> <li>7. Display visual/spatial skills necessary for safe delivery of dental hygiene care services.</li> </ol>
<b>Tactile</b>	<p><b><u>Performance Statement:</u></b> A student must have sufficient tactile sensitivity with all digits of both hands to manipulate dental instruments to observe, palpate and collect assessment information.</p> <p><b><u>Essential Function(s)</u></b></p> <ol style="list-style-type: none"> <li>1. Perform direct palpation techniques to examine the intra-oral and extra-oral soft tissues and to apply appropriate vital sign techniques to ensure safe delivery of dental hygiene care services.</li> <li>2. Apply tactile sensitivity skills to properly manipulate dental instruments in the patient's mouth to detect calculus, recognize lesions and to evaluate clinical procedures.</li> </ol>
<b>Hearing</b>	<p><b><u>Performance Statement:</u></b> A student must be able to hear to acquire and process information received through such interactions as media devices, verbal communication with patients, classmates, professors and other members of the healthcare team.</p> <p><b><u>Essential Function(s)</u></b></p> <ol style="list-style-type: none"> <li>1. Interpret communication received from many people and correctly interpret their verbal communication in order to synthesize course information for use in a laboratory and/or a clinical setting.</li> <li>2. Apply written and/or oral communication instructions to perform clinical and laboratory skill evaluations.</li> <li>3. Engage in active listening with classmates, faculty and other individuals throughout all academic and community course assignments.</li> <li>4. Interact verbally to sufficiently perceive audible information received from a patient or guardian to acquire accurate medical and dental history assessment information.</li> <li>5. Audibly discern whether a patient is experiencing signs and/or symptoms of a medical emergency.</li> <li>6. Demonstrate sufficient and accurate auditory perception to receive verbal communication from patients and other members of the health team through the use of stethoscopes, dental equipment, videos, fire alarms, etc.</li> </ol>
<b>Communication</b>	<p><b><u>Performance Statement:</u></b> A student must be able to communicate in English to engage in both oral and written formats with patients, physicians, faculty, health professionals and/or other community members. Communication can be conveyed through verbal and nonverbal expression, reading, writing, and computer skills.</p> <p><b><u>Essential Function(s)</u></b></p> <ol style="list-style-type: none"> <li>1. Participate in course delivery such as online, in-class and group discussions to deliver and receive information to respond to questions from a variety of sources.</li> <li>2. Demonstrate an understanding of basic English written grammar and spelling skills to accurately and legibly convey concepts in course assignments and to prevent medical errors through documentation of the patient’s medical and dental record.</li> <li>3. Demonstrate and explain treatment options to include dental hygiene preventive procedures and dental disease to a patient and/or their caregiver in a manner that is appropriate for each patient to comprehend.</li> <li>4. Recognize, respect and adapt to the physical and psychological needs of others.</li> </ol>

**FLORIDA SOUTHWESTERN STATE COLLEGE  
DENTAL HYGIENE PROGRAM**

	<ol style="list-style-type: none"> <li>5. Communicate with patient and faculty regarding patient care recommendations and provide referrals as deemed necessary for achieving optimum health.</li> <li>6. Communicate utilizing proper English in both orally and in a written format.</li> <li>7. Recognize voice volume, using a tone that promotes effective communication in the dissemination of information.</li> <li>8. Identify and comply with HIPAA regulations to protect dissemination of Personal Health Information (PHI).</li> </ol>
<b>Interpersonal</b>	<p><b><u>Performance Statement:</u></b> A student must be able to relate to other people from a variety of diverse social, emotional, intellectual and cultural backgrounds through the use of observation skills and effective verbal communication.</p> <p><b><u>Essential Function(s)</u></b></p> <ol style="list-style-type: none"> <li>1. Engage with others to incorporate an attitude that promotes a team oriented environment.</li> <li>2. Develop compassion and concern for others to include classmates, staff, patients and faculty.</li> <li>3. Develop mature, sensitive, and effective relationships with individuals and groups from a variety of social, emotional, cultural, and intellectual backgrounds.</li> <li>4. Acquire the ability to tolerate physical and emotional stress and to maintain poise and flexibility in stressful situations.</li> <li>5. Deliver dental hygiene services to a patient that requires one to work within a close proximity with another individual.</li> <li>6. Demonstrate an ethical behavior that promotes integrity and professionalism throughout one's academic endeavors.</li> </ol>
<b>Self-Care</b>	<p><b><u>Performance Statement:</u></b> A student must be able demonstrate a professional demeanor that promotes general good health, emotional stability and self-care in the delivery of dental hygiene patient care services at all times in an academic, laboratory and/or clinical setting.</p> <p><b><u>Essential Function(s)</u></b></p> <ol style="list-style-type: none"> <li>1. Demonstrate safety and wellness behaviors in the classroom, laboratory and clinical environments.</li> <li>2. Comply with industry health and safety standards, OSHA guidelines, and be familiar with dental product standards as communicated on safety data forms.</li> <li>3. Demonstrate a stable emotional health that enables one to fully use their intellectual abilities to complete all responsibilities required in the delivery of dental hygiene patient care services.</li> </ol>
<b>Critical Thinking</b>	<p><b><u>Performance Statement:</u></b> A student must be able to demonstrate critical thinking sufficient to deliver dental hygiene patient care services and to respond appropriately in any medical emergency situation.</p> <p><b><u>Essential Function(s)</u></b></p> <ol style="list-style-type: none"> <li>1. Apply critical thinking processes to solve work related problems in the classroom and in various laboratory and clinical settings.</li> <li>2. Promote life-long learning through the process of self-evaluation.</li> <li>3. Develop intellectual, conceptual and critical thinking abilities to access, analyze, reason and synthesize data in order to draw sound conclusions and make clinical decisions.</li> <li>4. Sequence information, plan/control activities for others, identify cause-effect relationships, problem solve as well as obtain, interpret, and document information.</li> </ol>
<b>Organizational Skills</b>	<p><b><u>Performance Statement:</u></b> A student must be able to work in an environment that requires one to multi-task in an academic, clinical and/or laboratory setting in order to effectively and efficiently perform dental hygiene skills and procedures in a logical, sequential and orderly manner.</p> <p><b><u>Essential Function(s)</u></b></p>

**FLORIDA SOUTHWESTERN STATE COLLEGE  
DENTAL HYGIENE PROGRAM**

	<ol style="list-style-type: none"> <li>1. Coordinate a schedule that permits one to organize their academic and personal commitments effectively and efficiently in order to facilitate an environment that enables the student to learn and be successful in completing course and program requirements.</li> <li>2. Be a self-starter to work effectively without prompting from others, work independently on projects and seek to exceed the minimum required.</li> <li>3. Reserve approximately 25-30 additional hours/week to devote to studying course concepts beyond the required attendance for classroom, laboratory and clinical courses.</li> </ol>
<p><b>Intellectual Ability</b></p>	<p><b><u>Performance Statement:</u></b> A student must have the capacity to read, write, speak and understand English to critically think, see connections between concepts, problem solve and then recall data and concepts to recognize new information.</p> <p><b><u>Essential Function(s)</u></b></p> <ol style="list-style-type: none"> <li>1. Comprehend and assimilate verbal and written course materials in order to transfer the theoretical concepts in a clinical environment.</li> <li>2. Interpret, integrate, analyze and synthesize patient data to provide evidenced-based care in the delivery of dental hygiene care services.</li> <li>3. Recall and memorize information to perform simple and repetitive tasks in a laboratory and/or a clinical setting.</li> <li>2. Learn to adapt to a variety of different personalities and any given problem.</li> <li>3. Implement communication strategies to resolve conflicts and/or to solve a problem.</li> <li>4. Articulate ideas, dissect words and understand new words that one has yet to learn.</li> <li>5. Assimilate information to use proper punctuation, grammar and spelling with both written and oral communication assignments as required in the classroom, laboratory and clinical settings.</li> <li>6. Interpret verbal and written instructions to effectively and efficiently perform dental hygiene competencies in a laboratory and/or a clinical setting.</li> <li>7. Respect and comply with program policies and procedures.</li> <li>8. Address concerns or problems in a professional and timely manner.</li> <li>9. Develop the ability to reason, analyze, problem-solve, critically think and self-evaluate in a professional career that focuses on being a life-long learner.</li> </ol>
<p><b>Commitment to Learning</b></p>	<p><b><u>Performance Statement:</u></b> A student must engage in scholarly activity to develop the skills necessary to become a life-long learner and to consistently demonstrate a professional attitude, and respect program policies and procedures.</p> <p><b><u>Essential Function(s)</u></b></p> <ol style="list-style-type: none"> <li>1. Initiate and motivate oneself to review media, course learning activities and reading assignments on a weekly basis before each scheduled course meeting.</li> <li>2. Prepare for course evaluations on a weekly basis to increase success with individual course assignments.</li> <li>3. Demonstrate an attentive behavior in all classroom, laboratory and clinical environments.</li> <li>4. Submit course assignments in a timely manner prior to the published deadline.</li> <li>5. Maintain academic integrity through the submission of one's own work on all written and oral communication assignments throughout the program.</li> <li>6. Avoid engaging in behaviors consistent with plagiarism and/or cheating.</li> <li>7. Demonstrate a professional behavior by arriving 20-30 minutes prior to each classroom, laboratory and clinical assignment.</li> <li>8. Research additional course materials to enhance one's understanding of concepts presented in the classroom and/or clinical setting.</li> </ol>

**FLORIDA SOUTHWESTERN STATE COLLEGE  
DENTAL HYGIENE PROGRAM**

	<p>9. Engage in research activities to enhance one’s knowledge in the delivery of evidence-based dental hygiene services.</p>
<p><b>Behavioral/ Social/Professional Skills</b></p>	<p><b><u>Performance Statement:</u></b> A student must be able to display the psychological health and appropriate affective behaviors to interact with their peers, faculty and the community at large to provide dental hygiene care services safely in all surroundings associated with the academic, laboratory and/or clinical environments.</p> <p><b><u>Essential Function(s)</u></b></p> <ol style="list-style-type: none"> <li>1. Demonstrate respect and a caring attitude towards all patients, peers and faculty.</li> <li>2. Demonstrate respect for diversity and differences in other cultures.</li> <li>3. Function effectively under stress.</li> <li>4. Perform in an environment where one can deliver safe dental hygiene care with multiple interruptions, distractions and/or unexpected needs of a patient.</li> <li>5. Respond calmly, efficiently and quickly to the needs of the patient in a clinical environment.</li> <li>6. Adapt to the academic rigors of course requirements.</li> <li>7. Recognize and discuss constructive feedback provided on written and oral communication assignments designed to enhance performance skills in the delivery of dental hygiene services in an efficient and effective manner.</li> <li>8. Incorporate time management tools to meet course and program deadlines.</li> <li>9. Adhere to program rules and guidelines and abide by the rules of the College.</li> </ol>
<p><b>Computer Literacy</b></p>	<p><b><u>Performance Statement:</u></b> The student must be able to send, retrieve information from a variety of electronic formats.</p> <p><b><u>Essential Function(s)</u></b></p> <ol style="list-style-type: none"> <li>1. Navigate within the Colleges’ Learning Module System (LMS) and the Dental Hygiene Clinic computer software program.</li> </ol>
<p><b>Occupational Exposure</b></p>	<p><b><u>Performance Statement:</u></b> The dental hygiene student must be immunized to prevent the spread of communicable diseases and practice protocols to ensure patient safety.</p> <p><b><u>Essential Function(s)</u></b></p> <ol style="list-style-type: none"> <li>1. Obtain and maintain required health immunizations throughout the program.</li> <li>2. Practice safe clinical and laboratory protocols to prevent the spread of communicable diseases.</li> </ol>

The applicant must have completed three of the following sciences classes: BSC 1093C or BSC 1085C, BSC 1094C or BSC 1086C, MCB 2010C, Chemistry with corresponding Chemistry Laboratory course completed and documented on a transcript by January 15, 2025.

**FLORIDA SOUTHWESTERN STATE COLLEGE**  
**DENTAL HYGIENE PROGRAM - CRITERIA FOR ADMISSIONS**

Admission into the Dental Hygiene Program is a two-phase process. Phase I evaluates applicants according to the number of points earned through: cumulative grade point average, math/science grade point average and co-requisites points by the application deadline of December 15, 2024. Courses not completed by the end of the fall semester are not considered. Phase II evaluates the affective skills of applicants using an interview format. The top 30 candidates with the highest Phase I points are interviewed. Those with the highest total points from Phase I and II are placed in the program in rank order. **The applicant must have completed three of the following sciences classes: BSC 1093C or BSC 1085C, BSC 1094C or BSC 1086C, MCB 2010C, CHM/CHM Lab completed and documented on a transcript by January 15, 2025. Points will not be awarded for repeated courses that have already earned a passing grade of a "C" or better.**

**Phase I: Maximum Points 60**

Three Science Courses	Y & N

**Overall Math/Science GPA points are based on college level credits.** Transfer students must have their transcripts evaluated by the College before awarding points in Phase I. For any courses which did not transfer, the applicant may elect to submit a credit review request. The Credit Review form is located at <http://www.fsw.edu/registrar>. Select the helpful forms and links.

**Phase II: Maximum Points 60**

A mandatory program interview will be required for the top 30 candidates with the most points in Phase I on Friday, February 21, 2025 (8-6 p.m.). The program interview format will include a writing sample and a series of questions. The interview committee will evaluate the applicant's affective and written communication skills. The 18 applicants with the most points from Phase I & II will be selected.
