College Credit Certificate

Medical Information Coder/Biller

37 Credit Hours | CIP 0351071304

The Medical Information Coder/Biller Certificate Program is designed to educate and prepare graduates with entry-level employable skills. At the conclusion of the program, students will be prepared to take a national coding certification exam. Students will also experience real-world medical coding through the Coding Office Experience course. The Medical Information Coder/Biller Certificate prepares students for a medical coding career.
