

SCHEDULE 25: PARTITIONS

Partitions in Schedule25 allow us to place a space preference to an academic Subject Code. Where attributes *required* room features, partitions are a *preference*.

The Implementation Team has determined that partitions will be assigned by academic building.

- Spaces are assigned partitions established by their location
 - For example: Academic spaces in Building A on Lee Campus is assigned Partition LEE-A
 - If the space can only host pre-assigned courses, it is NOT assigned a partition
- Partitions are the preferred buildings assigned to Subject Codes
 - Each Subject Code will have 4 levels of partitions; Partition 1 will always be the preferred building, levels 2-4 will be determined based on which building is set as the preference

For more information on these, please see the Subject Code by Partition and Partition Guide attached.

SCHEDULE 25: PARTITION GUIDE

LEE CAMPUS			
PATITION 1 (Preferred Building)	PARTITON 2	PARTITION 3	PARTITION 4
A	AA	I	K
