Describe your institution's most successful strategies in meeting the assurances listed above.	Our partnership with the School District of Lee County that includes the identification and placement of students in Professional Development Schools, as well as monthly meetings with district representatives, informs our decisions regarding program effectiveness in meeting the needs of local schools. Also, teacher candidate knowledge of diverse student populations is met through careful field experience placement system developed by our field experience faculty and Field Experience Coordinator. There is much variance in populations across our five-county region; therefore, we make sure that teacher candidates are placed in environments that require them to instruct students with disabilities in inclusive settings as well as to instruct culturally and linguistically diverse students.
Please provide any additional information that describes the teacher preparation program(s) at your institution. The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.	Students that graduate from the Elementary Education program are eligible for both Reading and ESOL endorsements, ensuring their status of highly qualified teachers upon graduation. Additionally, all FSW graduates have taken and passed all Florida Teacher Certification Exams (FCTE). Upon graduation they are immediately employable. FSW consistently exceeds the state average of ITP completers employed in Florida public schools. An annual data analysis review (DARE) is completed with full-time faculty and staff and shared with all key stakeholders. Data from this report is used for program improvement. This data is utilized to inform program changes and to ensure consistent program improvement.
