pathways to success

Florida's higher education system is designed to allow students to successfully pursue a bachelor's degree by first earning an Associate in Arts (AA) degree at a Florida College System institution and then transferring to a four-year institution. This approach to earning a four-year degree is commonly referred to as the 2+2 system. The state of Florida guarantees that students who complete an AA degree at a Florida college have the opportunity to earn a bachelor's degree at a state university or Florida college offering four-year degrees.

FLORIDA GULF COAST UNIVERSITY

Transfer Student/Second Bachelor's

Have you already earned college credits?

Florida Gulf Coast University considers you a transfer applicant if you have a high school diploma from a regionally accredited high school or GED and have completed at least 12 semester hours of transferable college credit after graduation from high school, but have not completed a bachelors degree.

High school students who are taking dual-enrollment courses should apply using the freshman (first time in college) application, unless they plan to complete 12 or more semester hours of college coursework after graduating from high school. We will still consider your college coursework for transfer credit, so please have your college transcripts sent to the Office of Undergraduate Admissions.

You are considered a second bachelors degree applicant if you have a bachelors degree from a regionally accredited college or university (including FGCU).

FGCU welcomes all students. DACA and Undocumented students should refer to the FGCU DACA & Undocumented FAQ for additional information. DACA and Undocumented students seeking in state tuition rates must complete a Non-Resident Tuition waiver in addition to submitting the online admissions application.
