

Cornerstone Experience

A glance at the seminar aspect!

Class debates over tattoos as an art form.

Students compete in different challenges and work together to strengthen communication skills and build meaningful relationships.

The First Year Experience Community Update

March 2013

The Cornerstone Experience Course teaches critical thinking and time management skills that college students must use to be successful in college and also in life. The course engages students with the college through the Edison GPS (Go, Picture, Scribe) assignment that enables them to discover all the support services and enriching social activities the college offers. I personally enjoy participating with the students in the Community Service Saturday events. Showing our students that giving to others is a rewarding experience will create a better community for everyone.

First Year Experience

Day of Discovery at the Imaginarium

On February 23rd, 30 students volunteered 142 hours helping to facilitate the Day of Discovery event at the Imaginarium in downtown Fort Myers.

Habitat for Humanity

On February 16th, 23 students, faculty, and staff volunteered 138 hours working on a home in Labelle, FL, with Habitat for Humanity. Students came from Lee, Hendry Glades, and Collier campuses to help out.
