

DEDICATE TO GRADUATE

January 2020
Faculty

During the fall semester, new students were invited to complete FSW's First-Time Student Engagement Survey. Results from this survey help us learn more about our students and how we can best support students as they pursue their educational goals.

87% of students “agree” or “strongly agree” with the statement “my instructors care about me succeeding”.

65% of students “agree” or “strongly agree” that “instructors learned my name.”

We need your help to reach every FSW student!

Approximately 14,500 students are enrolled in 2,098 classes at FSW this spring. If every instructor committed to learning 7 of their students' names for each class taught, we could make considerable progress in striving to ensure 100% of students are known by name by an instructor.

Let us know about your experience working towards this goal. We would love to hear your stories and potentially feature you in an upcoming Dedicate to Graduate communication. Email us at DedicateToGraduate@fsw.edu.
