Ancestry, Memory, & Migration: The Cultures and Landscapes of Germany. Step into the heart of Europe to experience the cultures and landscapes of Germany. Stroll along the cobblestone streets of Bremen and Bremerhaven, marvel at gothic architecture in Cologne, explore the vibrant city of Berlin, and walk in the shoes of the millions of Europeans who immigrated to America through the port city of Hamburg. Examine how immigrant groups transformed the people and places they left behind and the nation they embraced during the great waves of immigration. Through hands-on research at world-renowned museums and archives across Germany, students will learn how to plan and execute a creative capstone research project. This immersive study abroad experience will transform how you see history, culture, and the world.
