Section III, Justification for proposal

Provide justification (below) for each change on this proposed curriculum action.

This course is scheduled for deletion from the catalog due to 5-year inactivity.

SoBT has deliberately created program-specific internship courses for each discipline represented in the School. This course is the second-level internship experience for computer programming. While the course has not had enrollment, it is always available to students. Given the increasing focus on internship activity as both an educational and placement tool, the faculty would like to see the internship opportunity remain available. Lastly, the SoBT Advisory Committee continues to stress the importance of internships.

Section IV, Important Dates and Endorsements Required

List all faculty endorsements below. (Note that proposals will be returned to the School or Division if faculty endorsements are not provided).
