FSWC is Lee is a dynamic and AdvancED STEM accredited (first and only in the state of Florida) learning environment that is dedicated to creating and sustaining the independent learning process. A focus on helping students construct knowledge through projects, hands on activities, and lots of academic debate and discussion helps vest dedicated students in their own success. Teachers are not primarily in charge of dispensing information but rather serve to monitor a structure where students can develop critical thinking skills to access, apply, and investigate relevant topics. Potential students should be prepared to have academics as their primary school priority and are expected to exhibit a high degree of personal integrity and social maturity during their time at FSWC - Lee.

Register for the lottery now so that you can have the option to attend next year!

In the meantime, come see for yourself how a small, caring, and academically focused environment can make an impact on your student’s future. More information is available by attending an open house, scheduling a small group tour, or checking us out online.
